

Tips for a Better Experience

Tips for a Better Experience

- **Choose an Appropriate Location:**

Make sure there is enough space in front of your home or in a designated parking spot near your home. Choose an area that is safe, quiet and free from distractions for your pet.

- **Prepare your Pet:**

Before the team arrives, help your pet feel comfortable and calm. It may be helpful to walk him briefly to relax and relieve tension before the procedure.

- **Minimize External Stimuli:**

During the service, make sure there are not many external stimuli, such as other animals, people or loud noises that could distract or stress your pet. Maintain a calm and peaceful environment around the car.

- **Prepare for Waiting Time:**

Be ready to wait briefly for the Safe Smile Pet team to arrive. Keep your pet comfortable indoors or in a shady spot near the car, providing fresh water and a place to rest if necessary.

- **After-Service:**

After the procedure, provide a calm environment for your pet to recover. Be alert to any signs of discomfort or concern and be ready to offer comfort and support as needed.

Thank You!
